YOU
KNOW
?

Keepers Registry relies on metadata provided by archiving agencies around the world to monitor the preservation of digital and digitized scholarly journals. Check today for free if your library's serial collections are preserved!

The screenshot shows the top navigation bar with the ISSN logo (International Standard Serial Number International Centre), the ISSN Portal logo, the Keepers Registry logo, and a globe icon. Below the navigation bar are five menu items: PUBLISHERS' AREA, DISCOVER ISSN SERVICES, RESOURCES OPEN ACCESS, KEEPERS REGISTRY, and THE ISSN INTERNATIONAL CENTRE. A search bar is present with the placeholder text "Input a search term (e.g. free text, or a title or ISSN(s))...", a dropdown menu set to "All", and a "Search" button. Below the search bar is a section titled "The Keepers" with a network diagram background and text: "are the archiving agencies which act as long-term stewards of the digital content issued as continuing resources including e-serials." Below this are four cards: "Keepers Registry" (with a 'K' icon and text about monitoring archival status), "Working Together" (with a network icon and text about publisher and library support), "Current Statistics" (with a bar chart icon and text: "41 870 titles now ingested & archived by 13 Keepers & 15 300 titles are being 'kept safe' by 3 or more"), and "Learn more" (with a speech bubble icon and text about subscribing to ISSN Services and the newsletter).
